Attachments: [off-site compliance request PDI soils Cycle Chem ACV 010719.pdf](#)

Hi Michelle (and Cynthia).

At this time, the CYCLE CHEM INC facility (at 217 SOUTH 1ST STREET in ELIZABETH, NJ) is considered acceptable to receive waste regulated by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Off-Site Rule (OSR) within the limitations of its permits.

PLEASE NOTE: The OSR establishes compliance criteria and release criteria, and establishes a process for determining whether facilities are acceptable based on those criteria. However, once a facility's OSR acceptability status has been determined, EPA assumes that such facility will only accept waste, and waste will only be sent to such facility, which complies with the relevant permits issued by government officials. Therefore, please contact the appropriate agencies (federal, state, local) to verify the facility has the authority to receive this waste prior to any shipments of waste.

Additionally, please also be aware that EPA believes the Mercury Export Ban Act (MEBA) prohibits export of mercury-contaminated media (and other materials) if the intent of the export is to recover and sell or use the mercury. For additional information, you can visit EPA's "Questions and Answers about the Mercury Export Ban Act of 2008" webpage.

Ramboll/RioTinto is proposing to have waste soil cuttings disposed at the [Cycle Chem/ACV landfill in Elizabeth New Jersey](#) later this month.
This waste consists of solids generated in December 2018 during additional OU3 PDI borings at 191 Route 31, in Washington New Jersey.

- The EPA project manager is Michelle Granger.
- The waste facility is in Region 2.
- Rolloff box soil analysis "in progress"

The attached form provides the generator and facility information.
Please let us know if we may proceed with arranging for disposal of the waste soils to [Cycle Chem/ACV in Elizabeth NJ](#).

To Off-site Rule Office

Please provide an update on the Off-site Rule Request sent on July 6 (see below and attached). Is Cycle Chem approved for disposal from our site?
